<b>SECTION 4.0</b>	<b>FIRST AID MEASURES</b>
--------------------	---------------------------

## Description of necessary first aid measures

### Eye contact

Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention.

### Inhalation

Move to fresh air. If breathing is difficult, give oxygen. Get medical attention, if needed.

### Skin contact

Remove contaminated clothing and shoes. Wash off immediately with soap and plenty of water. Get medical attention if irritation develops or persists. Wash clothing separately before reuse. Destroy or thoroughly clean contaminated shoes. If high pressure injection under the skin occurs, always seek medical attention.

### Ingestion

Rinse mouth thoroughly. Do not induce vomiting without advice from poison control center. If vomiting occurs, keep head low so that stomach content does not get into the lungs. Get medical attention immediately.

## Most important symptoms, acute and delayed

Prolonged or repeated skin contact may cause drying, cracking, or irritation.

## Indication of immediate medical attention and special treatment needed

Provide general supportive measures and treat symptomatically. Symptoms may be delayed.

## General information

Get medical attention if symptoms occur. Show this safety data sheet to the doctor in attendance.

<b>SECTION 5.0</b>	<b>FIRE-FIGHTING MEASURES</b>
--------------------	-------------------------------

## Suitable extinguishing media

Water spray. Water fog. Dry chemical powder. Carbon dioxide (CO<sub>2</sub>).

## Unsuitable extinguishing media

Do not use water jet.

## Specific hazards arising from the chemical

The product is not flammable. Will burn if involved in a fire.

## Special protective equipment and precautions for firefighters

Wear full protective clothing, including helmet, self-contained positive pressure or pressure demand breathing apparatus, protective clothing and face mask.

# SAFETY DATA SHEET

## Fire Fighting equipment/instructions

Withdraw immediately in case of rising sound from venting safety devices or any discoloration of tanks due to fire. Fight fire from maximum distance or use unmanned hose holders or monitor nozzles. Move containers from fire area if you can do it without risk. In the event of fire, cool tanks with water spray. Cool containers exposed to flames with water until well after the fire is out. For massive fire, use unmanned hose holders or monitor nozzles; if this is impossible, withdraw from area and let fire burn. Water runoff can cause environmental damage. Use compatible foam to minimize vapor generation as needed.

## General fire hazards

This product is not flammable. Will burn if involved in a fire.

<b>SECTION 6.0</b>	<b>ACCIDENTAL RELEASE MEASURES</b>
--------------------	------------------------------------

## Personal precautions, protective equipment and emergency procedures

Keep unnecessary personnel away. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. In case of spills, beware of slippery floors and surfaces. See Section 8 of the SDS for Personal Protective Equipment.

## Environmental precautions

Contain spillages with sand, earth or any suitable adsorbent material. Prevent spillage entering a watercourse or sewer, contaminating soil or vegetation. If this is not possible, notify police and appropriate authorities immediately.

## Methods and materials for containment and cleaning up

Small Spills: Absorb with earth, sand or other non-combustible material and transfer to containers for later disposal. Clean surface thoroughly to remove residual contamination

Large Spills: Prevent entry into waterways, sewers, basements or confined areas. If necessary dike the product with dry earth, sand or similar non-combustible materials. Absorb with inert absorbent such as dry clay, sand or diatomaceous earth, commercial sorbents, or recover using pumps. Clean surface thoroughly to remove residual contamination

<b>SECTION 7.0</b>	<b>HANDLING AND STORAGE</b>
--------------------	-----------------------------

## Precautions for safe handling

Keep away from heat, spark, open flames and other sources of ignition. Avoid prolonged or repeated contact with skin. Be aware of potential for surfaces to become slippery.

## Conditions for safe storage, including any incompatibilities

Store in a dry place. Keep away from incompatible materials, open flames and high temperatures.
